BupS Poland project

where we are…

EU exchange meeting Brussels, 23-25 Nov 2011

Monika Jarzemska,
The Polish National Energy Conservation Agency (KAPE)
mjarzemska@kape.gov.pl

We are…

We are…

Joined by…

- Public administration - Ministry of Economy, Ministry of Infrastructure, Energy Regulatory Authority
- FI - National Economy Bank, National Fund for Environmental Protection and Water Management
- Branch associations and societies - Polish Association of Construction Engineers and Technicians, Polish Association of Sanitary Engineers and Technicians, Association of Polish Electrical Engineers
- Manufacturers of construction materials and equipment and their associations (Mineral Wool Producers Association – MIWO, Styrofoam Manufacturers Association)
- Education Centres (Association of Vocational Education Centres, Warsaw University of Technology)

Joined by…

- Employers' associations and Chambers of Commerce (Polish Chamber of Commerce, The National Chamber of Commerce for Energy Efficiency)
- Energy Agencies (WMAZE), Energy Auditors Associations, Associations in RES fields (Polish RES Forum, Polish Biogas Association)
- Trade Unions ("Budowlani" Trade Union)
- Associations of Property Managers (Polish Associations of Property Managers)
- Construction sector clusters

In total more then 30 organisations

We are starting…

- Legal framework:
  - EE Act in place, RES Act in preparation, no ordinances
  - Action Plans in place (EE, RES)
  - EE/RES support mechanism
- Lack of workforce to reach 2020 targets:
  9% EE, 15% RES for 2020
  - less building sector graduates, less qualifications, no permits required by the regulatory bodies
- No national qualification and training system for EE/RES
  - pre-vocational and certificate courses in place (by training centers, energy agencies, manufacturers) but no quality monitoring
- New regulations introducing new RES related proffesions

We are heading…

Long term

passive, low energy, nearly zero/zero energy buildings

Mid term

2020 EU targets

Short term

A national qualification and training system:

simple, efficient, recognised internationally, adaptable to new technologies, imposing confirming qualifications

The way we see it done

Key success factors:

right people, the right message

-high level of commitment

- political – Council for building workforce training system (how to maintaing the interest)
- stakeholder – Qualification Platfrom (how to make the most of it)

-complex and comprehnsive baseline data

-taking into account diffent interestes
