Spanish national **strategy**

INTELLIGENT ENERGY EUROPE
FOR A SUSTAINABLE FUTURE

Europe 2020 goals

Environmental quality

Economic efficiency — **Sustainability** — Social equality

Priority due to impact on building's global use of energy

1. Renovating existing buildings (improving EE)
2. Improving urban spaces and territorial cohesion
3. Approaching new construction from an energy perspective (Technical Building Code review in 2012)

Build-Up Spain focus on 1& 3

Skills required

Training needs

Who is on board

19 institutions involved

INTELLIGENT ENERGY EUROPE
FOR A SUSTAINABLE FUTURE
