

Horizon 2020: Stimulating demand for sustainable energy skills in the construction sector

ENHANCING MARKET READINESS FOR NZEB IMPLEMENTATION

September 2021 – August 2024

Horizon 2020: Stimulating demand for sustainable energy skills in the construction sector

ENHANCING MARKET READINESS FOR NZEB IMPLEMENTATION

September 2021 – August 2024

“Why nZEB?”
“Who can provide nZEB?”
“How to reach nZEB?”

Prepare **ready to use frameworks** to answer the needs related to lack of **awareness**, lack of **skilled professionals** and lack of **support instruments**, implementing the **nZEB ready labelled procedures** in **5 pilot countries (BG, HR, PL, PT, RO)**

Overarching goal

To support the increase of the market readiness for an effective nZEB implementation and to stimulate the demand for energy related skills

Impact

10 municipalities trained for municipal projects (procurement procedures)

840 upskilled (nZEB) energy auditors, designers and execution engineers

300 new key nZEB specialists trained (Blower-door tester / Thermal bridges evaluator / Infrared inspector)

> 2 new certification schemes defined (on-site training and validation of skills)

25 MoUs signed with nZEB product suppliers
50 documented joint actions
15 national & local authorities involved

Reduced gap between designed and actual energy performance (measured airtightness)
