Short time trainings : AAA BOX

Short time trainings : AAA BOX

Short time training : Bricklayer

Plan

Model

Training

Short time training : Models - Exemples

- Real size models
- Small scale models
- Samples

Short time training : Hands-on Training

Short time training : Quality test

Blower-door test:
exercises followed by
quality test

LONG TIME TRAINING : FAÇADERS

POSITIVE ASPECTS

- Practical trainings based on know-how
- Learning situations
- Demonstrations
- Practical exercises in site conditions
- Allow an immediate feedback
- Good return of trainees

POINTS OF ATTENTIONS

- Important to have a mix between training in training centers and trainings on building sites
- Communication to motivate companies
- Evolution of materials
- Different levels of knowledges

Thank you for your attention !
