

# New Skills for Nearly Zero Energy Buildings

EU exchange meeting

26/10/2023

Co-funded by  
the European Union

New Skills  
for nearly  
Zero Energy  
Buildings

# NS4nZEBs

## New skills for nearly zero energy buildings

To close the gap between a fast changing technology and the practice is the main goal of this project. By this project we want to answer the needs that exist in the field.

In the field of heat pumps, PV panels, smart meters, dimensioning, adjustment, and working together of heat pumps and PV panels.

By developing new training curricula, new methodologies, e-learning, VR, living lab
