

streamSAVE+ Dialogue Meeting #01

Streamlining Energy Savings Calculations

‘Assessing energy savings from deep retrofit programmes’

Date: 22 October 2024
Registration link: [Link](#)

Duration: 11:00 – 12:15 CEST
Online

MEETING AGENDA

This first dialogue meeting of streamSAVE Plus will discuss how energy savings from deep retrofits of buildings can be assessed. Different methods will be illustrated through examples from the Czech Republic, Croatia and Ireland, covering non-residential, public and residential buildings.

11:00 – 11:10	Official opening and short introduction to the project
PART 1: Czech programme for non-residential buildings	
11:10 – 11:25	Presentation of new parameters within the supporting scheme for non-residential buildings focusing on deep renovations Miroslav Honzík (Czech Ministry of Industry and Trade) & Jiří Karásek (SEVEn)
11:25 – 11:30	Q&A
PART 2: Croatia’s programme for public buildings renovation	
11:30 – 11:45	Monitoring energy consumption in renovated public buildings in Croatia through Energy Management Information System (EMIS) Iva Fakin , Croatian Real Estate Agency (APN) and Vanja Hartman , EIHP
11:45 – 11:50	Q&A
PART 3: Deep renovation of residential buildings in Ireland	
11:50 – 12:05	Monitoring energy savings from deep retrofits in domestic buildings (tbd) Aidan Condell (SEAI)
12:05 – 12:10	Q&A
12:10 – 12:15	Open discussion and closing

The meeting will be moderated by Jean-Sébastien Broc (IEECP). Discussions will be under Chatham House Rule: the minutes will not mention any name or country. All discussion points included in the minutes will be anonymized.
