OBJECTIVES OF RE-ENERGIZE

- To enhance the skills of professionals in renewable energy
- To promote the adoption of heat pumps and sustainable heating and cooling technologies
- To raise awareness among consumers, stakeholders, and policymakers
- To foster collaboration to achieve EU energy and climate goals

OUTPUTS AND IMPACT

- **Skill gaps reduction:** 385 professionals in the building sector trained
- **Raise awareness:** 30% rise in consumer and stakeholder awareness
- **Employability:** 20% increase in job opportunities within 5 years after project completion
- **Market Transformation:** 50% of trained professionals overcome adoption barriers
- **Energy & Environmental Benefits:** energy savings and reduction of greenhouse emissions

COLLABORATION TOPICS

- Strategies for **successful engagement of stakeholders** in professional training
- **Joint communication opportunities** for increased impact (events, press releases etc.)
- Synergy of **innovative teaching methods**
- **Offer/receiving training or workshops** using materials developed within other LIFE projects to enhance replication potential
