European Commission

1. Input to forecast skills needs in energy

2. Work with Partnerships and Academies

3. Implement energy acquis (1/4): RES

Directive (EU) 2023/2413 Article 18 (3)

“Member States shall ensure that certification schemes or equivalent qualification schemes are available for installers and designers of all forms of renewable heating and cooling systems in buildings, industry and agriculture, for installers of solar photovoltaic systems, including energy storage, and for installers of recharging points enabling demand response...Each Member State shall recognise the certification awarded by other Member States in accordance with the criteria of Annex IV.”

3. Implement energy acquis (2/4): EPBD

Directive 2024/1275 (EPBD), Article 17(12)

“12. Member States shall put in place measures and financing to promote education and training with a view to ensuring that there is a sufficient workforce with the appropriate level of skills corresponding to the needs in the building sector, especially targeting SMEs, including microenterprises, as appropriate. One-stop shops established pursuant to Article 18 may facilitate access to such measures and financing.”

3. Implement energy acquis (3/4): EED

Directive (EU) 2023/1791, Article 28

“1. Member States shall set up a network ensuring the appropriate level of competences for energy efficiency-related professions that corresponds to market needs. Member States (...) shall ensure that certification or equivalent qualification schemes (...) are available for energy efficiency-related professions (...)

2. Member States shall promote participation in certification, training and education programmes to ensure the appropriate level of competences for energy efficiency professions that correspond to market needs.

3. Implement energy acquis (4/4): EED

Directive (EU) 2023/1791, Article 28

6. By 31 December 2024 and at least every four years thereafter, Member States shall assess whether the schemes ensure the necessary level of competences (...) for energy services providers, energy auditors, energy managers, independent experts, installers of building elements as referred to in Directive 2010/31/EU, and providers of integrated renovation works. Member States shall also assess the gap between available and in demand professionals. Member States shall make the assessment and recommendations thereof publicly available and submit them through the e-platform established in accordance with Article 28 of Regulation (EU) 2018/1999.”

Conclusions

Thank you for your attention !
